PROTECT YOURSELF from mosquito bites

Mosquitos can transmit diseases such as West Nile virus, Dengue or other infections.

Prevent mosquito breeding

Remove standing water around your home.

Cover rain barrels and water storage containers.

Empy containers regularly (buckets, plant saucers, toys).

Prevent water accumulation (gutters, drains, containers).

Protect yourself from bites

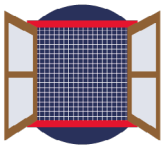

Wear light coloured long sleeves, long trousers, closed shoes.

Use repellents on skin and clothing.

Protect your home

Install mosquito screens on windows and doors.

Use mosquito nets where needed.

Additional protection

Targeted mosquito control (larvicides or insecticides) may be applied in risk areas.

Reduce breeding sites – reduce risk

KNOW THE RISK, PREPARE A RESPONSE
